Front page headline....Spout Spring Blossoms as 135 Additional Men Arrive In CC Camp And Barracks Go Up.

Spout Spring is blossoming into a second Camp Lee and Hopewell of 1917 with the arrival of 135 additional young men from the CC Camp at Camp Dix, New Jersey getting here Tuesday night. Spout Spring is rapidly becoming just about the busiest place in Appomattox County.

Between 60 and 100 carpenters have been making double-quick time this week constructing permanent wood barracks for the camp which now numbers 200 young men.

Seven frame buildings are now well on toward construction. When completed the boys will have a permanent camp in tip-top order and capable of taking care of over 400 men.

The first group of men came from Montana but were recruited from in and around New York.

The outdoor life is wholesome for the boys. One of the camp officers states that some of the boys weighed as low as 106 pounds when they enrolled, but now have gained such weight and endurance that some of them have been taking cold plunges into the waters of Tonawanda Lake. At present they are living in tents giving the camp a military appearance.

Students compete on market

The stock market can be fascinating and exciting, it can also be unpredictable and frustrating, but rarely is it boring.

Three teams of students at Appomattox Middle School are participating in a stock market game this fall. During the third week of the stock market game one of the teams placed third in the Lynchburg region. There are 93 teams in the Lynchburg region competing. The team also ranked in the top 40 teams in the state of Virginia.

The game, which runs for 10 weeks and began on Sept. 28, allows students to trade on the New York Stock Exchange with an imaginary $100,000.

Teams may buy and sell each day, borrow on margin and sell short. Transactions are sent to Virginia Council of Economic Education at Virginia Commonwealth University, where they are matched against actual closing prices on the New York stock exchange.

Teams receive weekly computer printouts reflecting present portfolio value and rank. The team with the highest portfolio value after ten weeks wins the competition.
